This incredible show will feature a new stage set, pyro effects that only the “hottest band in the world” could deliver, and all-new costumes. KISS ALIVE 35 North America also marks the first leg of the world’s first fan-routed tour – in which more than 10,000 individual cities across Canada and the U.S. mounted their own unique campaigns to bring KISS to their towns.

SONIC BOOM — KISS’ highly-anticipated album, and its first new material in 11 years — will be released exclusively at Walmart, Walmart.com and Sam’s Club retail locations beginning October 6.
